Supplemental Box
(To be used when the space in any of the preceding boxes is not sufficient)

Continuation of: BOX III

No international search was carried out for the promoter depicted in Figure 1a, since no sequence listing was submitted; neither a computer readable form nor a paper copy of the sequence complying with WIPO standard ST 25 was available for search (PCT Rule 5.2).

No search report was established for claims defining plasmids by a trivial name either.

Consequently, no search report was established for any of the amended claims.

The competent International Preliminary Examining Authority is therefore in the impossibility to assess the novelty or inventive step of the present claims.
